

UNITED NATIONS COMMAND
MILITARY ARMISTICE COMMISSION
APO 301

TWO HUNDRED THIRTY-THIRD MEETING OF THE SECRETARIES

HELD AT MAC HQ AREA, KOREA

26 APRIL 1961

MEMBERS PRESENT

UNITED NATIONS COMMAND

KOREAN PEOPLE'S ARMY
CHINESE PEOPLE'S VOLUNTEERS

COLONEL WHEELER G. MERRIAM, USA COLONEL LEE YOUNG IL, KPA
LT COL ELDEEN H. KAUFFMAN, USA COLONEL HAN JU KYONG, KPA

Meeting convened at 1030 hours

KPA/CPV:

Another serious provocative act has recently been committed by the security personnel of your side in the Joint Security Area.

Immediately after the 140th Military Armistice Commission meeting held on April 22, 1961, at about 1318 hours our time, your security personnel not only stood intentionally in the way of our security guards who were withdrawing after completion of their guard duty in the Joint Security Area to hinder them from passing, but committed mass violence falling upon our security personnel in crowds to kick and beat them.

This barbarous outrage of your side against our security guards was perpetrated under the direct command of your security officer, Captain LYONS with the support of the combined force of the ten odd military personnel and even many of the visitors of your side who were present around there at that time.

This irrefutably proves that the barbarous mass violence by your side was a deliberate provocation committed with preparations of a planned and organized nature.

The entire process of the villainous outrage committed by your personnel was witnessed by numerous people including the reporters from north and south Korea who were then

Sec/233

flocking around the scene.

This notwithstanding, your side tried to deny this provocation performed by it, distorting the truth about the incident, employing the same usual tactics at the meeting of the Security Officers of both sides held on April 22.

But your side can by no means deny this incident.

Against such provocative acts, unceasingly committed by your side in the Joint Security Area, did our side lodge protests with your side at a number of the Security Officers' meetings held recently, as well as at the 229th Secretaries' meeting held on March 10, demanding that your side take responsible steps to maintain security and order in the Joint Security Area.

But your side did not take any steps and, what's worse, publicly resorted to mass violence as mentioned above.

The insufferable provocation committed by your side most recently against our security guards was a dangerous action which threatens security and undermines order in the Joint Security Area and which may bring serious consequences, and it constitutes a flagrant violation of the Armistice Agreement and the QUOTE Agreement on the Military Armistice Commission Headquarters Area, its Security and its Construction. UNQUOTE

Under the instructions of the Senior Member of our side, I enter a serious protest with your side against the mass violence it committed again recently against the security guards of our side.

At the same time, I demand energetically that your side turn out of the Joint Security Area immediately its security officer, Captain LYONS who has been intent on provocation, that it vigorously punish other offenders and

KPA/CPV: (CONTD)

that it take responsible steps to prevent a recurrence of such provocations in the future so the such devilish provocations may be ceased immediately, and that security may be ensured and order maintained in the Joint Security Area.

UNC:

The facts of the incident as stated by you are incorrect. The true facts as presented by our side are in the record of the Joint Security Officers meeting of 22 April 1961.

Certainly you must realize that several of your guards regularly engage in provocative acts. If your officers do not realize this, then they should investigate. Many of these provocative actions by your guards are ignored by our guards. However, when your guards strike one of our guards or a visitor, as has happened last Saturday, then action must be taken in self-defense.

Our side is well aware of the serious consequences that could result from such incidents and there is no doubt in my mind that your side is cognizant of this fact also.

It has been our side's policy to make every effort to avoid these acts of physical violence. This policy is presently in force and will continue. However, the recent increase of incidents in the Joint Security Area indicates that both sides must make a special effort to control their personnel.

Our side is going over procedures to insure a minimum of friction between personnel of the two sides. I assure you that our side does not and never did wish to interfere with your guards in the performance of their regular duties nor with any of your ceremonies such as escorting your Senior Member to and from the conference room.

If you are sincerely interested in reducing tension and these incidents in the Joint Security Area, I ask that you investigate and put a stop to these provocative actions

UNC: (CONTD)

and physical contact by your guards. Then only can our two sides avoid a recurrence of such incidents which could easily result in something that neither of us can control. Do you agree?

KPA/CPV:

As I have already stated, the military personnel of your side who visited the Joint Security Area on April 22 were executing provocative acts of an organized and planned nature, gadding about in crowds around the conference room of the Military Armistice Commission, and finally, breaking into the column of our security guards who were withdrawing from the conference area, committed an outrage on them assaulting them in groups.

The barbarous act of violence committed by the personnel of your side was witnessed by all people including news media representatives of both sides who were in the Joint Security Area on that day. Now, how can you deny this glaring fact?

That was of course, not the first occasion for your personnel to resort to such an uncivilized act of violence in the Joint Security Area.

On March 8 last, too, your personnel assaulted one of our security personnel on guard duty without any reason and on April 5, committed such an overt hostile act as to threaten our security guard with a pistol.

The hostile and provocative acts committed by your personnel in the Joint Security Area have not been confined to violence on our personnel alone.

To cite some of the most recent examples alone, your personnel drove their motor vehicle on March 6 last against one of our security structures thereby destroying it and, driving their vehicles by a close shave beside a guard post of our side, threatened the safety of our security personnel

KPA/CPV: (CONTD)

on guard, and on March 31, they broke off the telephone wire of our side intentionally.

Your personnel committed those hostile provocations in an organized and planned manner under the direction of their superior officers. This was further clearly borne out by the fact that your personnel again committed such provocative acts as to flout and insult our personnel at about 1740 hours and 1920 hours our time on April 22 soon after the Security Officers' meeting held on that day to denounce the mass physical violence committed by your personnel.

The aforesaid organized provocative acts committed by your personnel were a vivid disclosure of the cloven-hoof of the provocators who intend to disturb order and threaten security in the Joint Security Area in order to cause a serious trouble there.

Why does your side thus perpetrate continually various provocative and hostile acts everywhere you go?

If your side has no intention to wreck the Korean armistice, your side must stop forthwith all sorts of provocative acts by your personnel, punish provocators and take thorough measures to prevent a recurrence of similar provocative hostilities so that a normal atmosphere may be preserved in the Joint Security Area.

I again urge your side to comply with our just demand without delay.

UNC:

Your statement is filled with falsehoods. You are attempting to shift the complete blame from your side. This is unacceptable.

Our side is well aware that incidents of physical violence by your guards have been steadily increasing during the past few months.

UNC: (CONTD)

I will cite a few examples: On 23 January 1961, one of your side's guards attempted to disrupt a United Nations Command guard relief and laid hands on the United Nations Command guard Non-commissioned officer. On 1 March 1961, one of your side's guards assaulted one of our guards when he stepped out the United Nations Command Joint Duty Office. On 8 March 1961, one of your side's guards slapped one of our guards near our Joint Duty Office and several of your guards manhandled our side's security officer when he went to investigate the incident. Also on the same day, one of your side's guards kicked a security guard of our side in the back. On 22 April 1961, two of your side's guards struck a military visitor of our side and in the skirmish that followed, one of your side's guards attempted to draw a pistol.

There are also on the record many instances where your side's security personnel perpetrated childish and provocative acts such as spitting at vehicles and personnel of our side, restricting free movement of our side's personnel, placing large rocks in the roads of the Joint Security Area, throwing stones at our side's vehicles, and others.

Lately, these incidents have become more numerous as well as more violent.

Action must be taken by your side to stop these provocative actions before they get completely out of hand. Our side is aware of this and I'm sure that your side must also recognize this.

You must investigate these provocative acts by your personnel and remove those who are responsible if your are sincere about stopping these incidents.

I have stated that our side has never wished to and does not wish to interfere with your security personnel while they are carrying out their regular duties. I have

UNC: (CONTD)

also asked your side to investigate the illegal acts of your personnel with a view to reducing the tension which has increased in recent months. What is your answer to my proposal?

KPA/CPV:

Your statement is fraught with falsehoods which were invented in order to cover up the provocative acts unceasingly committed by your security personnel.

As I have already stated, the act of mass violence done by the personnel of your side to the security guards of our side was not resultant merely from a bad habit of some of your hireling soldiers who have been engrossed in human butchery, robbery and misconduct.

The vicious provocative acts which have been committed by your personnel on every occasion of the meetings of such an important organ as the Military Armistice Commission are without exception willful hostile acts committed in a planned way, as was eloquently proved by the events occurring on March 8 last and April 22 of late, with the aim of jeopardizing security in the Joint Security Area, undermining order there, leading to serious conflicts and standing in the way of the normal activity of the Military Armistice Commission.

Unless such a dangerous provocative act is ceased and the provocators are expelled from there, it is hardly possible to insure security, maintain order in the Joint Security Area and, moreover, to ensure normal activity of the Military Armistice Commission.

Your side should take the following actions:

One: Cease immediately all kinds of provocative acts which may lead to serious consequences in the Joint Security Area;

KPA/CPV: (CONTD)

Two: Punish severely those of your security personnel who used to commit dangerous provocative acts;

Three: Expel out of the Joint Security Area without delay those of your security personnel who used to endanger security, break up order and do violence in the Joint Security Area;

Four: Control and take charge of the guests of your side who visit the Joint Security Area and the Conference Area so that they may keep the established regulations and order in order to prevent them from interfering with the routine guard duty of our security guards; and

Five: Exert the utmost efforts to maintain normal atmosphere in the Joint Security Area exhausting all necessary measures and methods.

UNC:

I have stated that our side is taking steps toward reducing the tension and preventing a recurrence of incidents here in the Joint Security Area.

I ask you again, will your side do the same in the true spirit of the Armistice Agreement?

KPA/CPV:

The useless justifications and pretexts you have dwelt on in order to rationalize the barbarous violence of your side only serve to expose further your shamelessness involuntarily.

Starting exactly from such a brigandish character, your side takes it for the QUOTE fulfillment of its routine duty UNQUOTE to perpetrate various provocations such as to undermine the security and order in the Joint Security Area, deliberately stand in the way of our security guards in carrying out their guard duty, insult, fool, and defy them by vulgar words and deeds, intentionally destroy our installations for security use and employ violence

KPA/CPV: (CONTD)

individually and collectively.

That is why you do not feel any responsibility or remorse for your criminal acts, but instead praise and encourage the barbarous acts of your mercenary soldiers.

This can never be tolerated.

Your side must keep under control all arrogant and rude security personnel of your side, severely punish those indulging themselves habitually in provocations, expel them from the Joint Security Area and take at once practical measures to ensure security and maintain order in the Joint Security Area.

With no crafty subterfuge can your side be freed from this responsibility.

UNC:

The security and maintenance of order in the Joint Security Area is the responsibility of both sides. Our side will not accept the entire blame for the tension and incidents in the Joint Security Area. Your side is equally to blame, if not more so. Our side will not unilaterally abide by the rules, while your side flaunts them.

Now what is your specific answer to my proposal as a solution to the problem? Will you investigate and put a stop to the provocative acts by your personnel?

KPA/CPV:

The provocative act was committed directly by your side, but you have pertinaciously attempted to lay your guilt on another person by making a preposterous allegation.

You are matchless in committing provocative acts, yet why do you try in such a manner to escape your responsibility for the criminal act committed by yourselves?

Now that you have committed a criminal act, you should bear the responsibility for it.

KPA/CPV: (CONTD)

Your side should desist from its old position and its obstinate allegation, punish the provocators severely, drive them out of the Joint Security Area, and take responsible action to prevent a repetition of similar deeds.

UNC:

You refuse to answer my questions. The record of this meeting will show that, you have no sincerity in wanting to reduce tension, but rather that you used the meeting to read prepared statements as part of your propaganda program. The record will show that you ignore my request to investigate the provocative acts committed by your personnel.

KPA/CPV:

Your side signed the Armistice Agreement pledging itself to compliance with all of its terms.

And your side approved and endorsed the rules of the Agreements and Understandings which were made for the maintenance and insurance of order and security in the Headquarters Area.

Unless your side intentionally evades the carrying out of its obligations under the Armistice Agreement and the Agreements and Understandings between both sides, your side should discard such an improper attitude, make an apology to our side for its wrong and, at the same time, give a definite answer that your side will expel out of the Headquarters Area of the Military Armistice Commission those who are in the habit of executing provocative acts, and that your side will not repeat such violence.

I once again urge your side to take a sincere attitude towards the just demand of our side.

UNC:

Our side has made a proposal for a solution to the problem here in the Joint Security Area with sincerity. Your side has chosen to ignore our side's attempt to resolve

UNC: (CONTD)

this situation in a peaceful manner in the true spirit of the Armistice Agreement. The record of this meeting will reflect this, and the consequences are squarely on your shoulders.

I go to another subject.

Again displaying its high regard for the letter and spirit of the Armistice Agreement, the United Nations Command conducted a complete and careful investigation into all the alleged violations of the Demilitarized Zone contained in the lists passed by your side at the 230th/231st and the 232nd Secretaries meetings on 18 March and 7 April 1961. They are without basis in fact.

An investigation was also conducted into the alleged ground violations and the incident in the Han River Estuary charged by your side at the 232nd Secretaries meeting. These also proved to be without basis in fact.

They have all been slanderously charged by your side in an attempt to destroy the reputation of the United Nations Command as the side that lives up to the Armistice Agreement.

Therefore, the alleged violations are denied.

The United Nations Command again displaying its high regard for the provisions and spirit of the Armistice Agreement, has conducted a complete and detailed investigation into the alleged sea violations charged by your side at the 229th meeting of the Secretaries on 10 March 1961, 230th/231st meeting of the Secretaries on 18 March 1961, and the 232nd meeting of the Secretaries on 7 April 1961.

These charges of your side like many others, have been disclosed to be completely false and concocted in an effort to defame the United Nations Command. They are therefore denied.

I have been instructed by the Senior Member of the

UNC: (CONTD)

Military Armistice Commission of our side to demand that your side cease its campaign of slander against the United Nations Command and live up to the Armistice Agreement.

KPA/CPV:

It has been demonstrated by the attitude taken by your side at today's meeting that your side has felt no compunction nor responsibility for the serious provocative acts which have incessantly been committed by your side in the Joint Security Area.

This very attitude of your side runs completely counter to the provisions of the Armistice Agreement and of Agreements and Understandings between both sides as well as to their spirit and, therefore, such an attitude should be altered without delay.

Being the signatory to the Armistice Agreement and one of the sides that approved and endorsed the Agreements and Understandings between both sides, your side should fulfill its obligations imposed by them and comply with our demand forwarded today.

You have stated today that you will control and supervise your security personnel who have been bent on committing provocative acts in the Joint Security Area.

Our side takes your remarks as an assurance that your side will cease all sorts of provocative acts in the Joint Security area in the future.

Whether the assurance you have given is true or not will be testified by actual deeds to be performed by your security personnel in the Joint Security Area hereafter.

I declare to your side that our side will take a decisive action against such provocative acts if your side continues to commit them in the Joint Security Area in future as well in disregard of the repeated warnings from our side, and that your side will have to bear full

responsibilities for all the consequences arising therefrom.

You have attempted to describe as a demonstration of some QUOTE regard UNQUOTE for the Armistice Agreement the mean act of your side intending to deny flatly the glaring violations by your side of the Armistice Agreement. These nonsensical remarks of yours are quite ridiculous.

I ask you: How can you allege your side's aggressive acts of having dispatched into our coastal waters its naval vessels of various types almost every day and now and again a few times a day from the beginning of the New Year, committed provocative, hostile acts against our side in the Demilitarized Zone and dispatched it armed vessels into the waters of the Han River Estuary under the control of our side in gross violation of the Armistice Agreement to be a manifestation of its QUOTE regard UNQUOTE for the Armistice Agreement?

And I ask you: How can you allege it to be the QUOTE regard UNQUOTE your side shows to the Armistice Agreement for it to take such a shameless action as to deny flatly later its serious violations of the Armistice Agreement while first stating on the spot that an QUOTE investigation UNQUOTE will be conducted whenever a protest is lodged by our side against your side?

As the iron-clad facts eloquently show, your side has not shown any regard for the Armistice Agreement but trampled upon it, your side has not shown any QUOTE sincerity UNQUOTE in the implementation of the Armistice Agreement but neglected and evaded it; and it has been indulged in covering up the criminal acts previously committed and in perpetrating more grave criminal acts, under the screen of QUOTE an investigation. UNQUOTE

As our side has already pointed out, the serious violation of the Armistice Agreement by your side is an immovable and stern fact.

KPA/CPV: (CONTD)

Nevertheless, your side has not only attempted to cover up its criminal acts with such abusive language as QUOTE fabrication UNQUOTE or the like, but also gone so far as to take an unjustifiable attitude to slander our side at random which has been consistently faithful toward the implementation of the Armistice Agreement.

Your side has disrupted and infringed upon the Armistice Agreement and gravely menaced the Korean armistice. How can such provocative acts of your side be connived at without being denounced and how can the criminals be forgiven with impunity?

If you are afraid of being called to account by our side for its grave violations of the Armistice Agreement and of its violations being exposed to the world, your side should not have committed such hostile and provocative acts from the beginning, should it?

The absurd utterance of your side that it is improper for our side to charge your side with the violations of the Armistice Agreement, clearly shows that the brigandish and wily nature of you, U.S. imperialist aggressors has reached the extremity.

Accordingly, such an action of your side arouses greater hatred in the minds of the entire Korean people and the peace-loving peoples of the world who are raising an ever louder voice of indignation and denunciation against the aggressive acts of your side which has incessantly been committing various provocations against our side.

I resolutely denounce the shameless act of your side attempting to deny flatly the serious violations of the Armistice Agreement committed by your side.

With no desperate moves can your side defame our side, nor can it cover up its criminal acts of having dispatched its naval vessels into our coastal waters and having

KPA/CPV: (CONTD)

violated the rules for the control and maintenance of the Demilitarized Zone, nor can it relieve itself from the responsibility for them.

The Korean people and the world public will follow with serious concern the pranks of your side toying with fire.

Your side must bear the responsibility for its provocative acts, punish the personnel involved in those incidents and take responsible steps to prevent the recurrence of similar incidents.

UNC:

You have understood correctly our side will control our security personnel in the Joint Security Area. However, also understand this - our personnel will take appropriate action against your provocative acts in the Joint Security Area which your side apparently intends to continue since you failed to give an answer to my proposal.

I now place before you a list of 51 violations committed by your side in the Demilitarized Zone during the period 15 March 1961 through 21 April 1961. This shows that your side violates the Armistice Agreement and Agreements subsequent to the Armistice Agreement at the rate of more than one a day. During your time as secretary, your side has violated the Agreements pertaining to the Demilitarized Zone a total of 80 separate times at a rate of nearly two violations per day.

The United Nations Command demands that your side make a complete investigation, punish those responsible for these violations and take immediate and resolute steps to prevent the recurrence of these acts.

KPA/CPV:

I have noted that you have again assured that your side will not commit provocative acts in the Joint Security

KPA/CPV: (CONTD)

Area in the future.

The charges you have just made will be investigated.

I have a statement to make on another subject.

Whenever your side fired guns of various caliber including those of large caliber toward our side in the Demilitarized Zone in the past, our side lodged protests with your side against those incidents and strongly demanded that your side desist from repeating such actions.

Your side, however, has repeatedly fired various guns toward our side in disregard of our demands.

At about 0740 hours our time on April 14, 1961, two personnel of your side appearing in the vicinity of 38 degrees 02 minutes 40 seconds North, 126 degrees 52 minutes 30 seconds East in your portion of the Demilitarized Zone fired four shots at the civil police personnel of our side who were then carrying out their routine guard duty in the vicinity of 38 degrees 02 minutes 30 seconds North, 126 degrees 51 minutes 03 seconds East in our portion of the Demilitarized Zone, thereby threatening the lives of our personnel.

And around 0610 hours our time on April 15, 1961, two personnel of your side appearing in the vicinity of 38 degrees 00 minutes 45 seconds North, 126 degrees 49 minutes 55 seconds East in your portion of the Demilitarized Zone fired three shots at the civil police personnel of our side then on their routine guard duty in the vicinity of 38 degrees 00 minutes 55 seconds North, 126 degrees 49 minutes 23 seconds East in our portion of the Demilitarized Zone.

And around 1240 hours our time on the same day, three military personnel of your side moving about in the vicinity of 38 degrees 03 minutes 40 seconds North, 126 degrees 52 minutes 30 seconds East in your portion of the Demilitarized Zone fired three shots at the civil police personnel of our

KPA/CPV: (CONTD)

side carrying out their routine guard duty in the vicinity of 38 degrees 03 minutes 50 seconds North, 126 degrees 51 minutes 35 seconds East in our portion of the Demilitarized Zone, thereby menacing their lives.

As mentioned above, your side opened fire at random at our personnel in the Demilitarized Zone which was established as a buffer zone. Such provocations on the part of your side constitute not only gross violations of the Armistice Agreement but also extremely dangerous acts of playing with fire in an attempt to cause serious trouble and create a tense atmosphere in the Demilitarized Zone.

I have been instructed by the Senior Member of our side to lodge a strong protest with your side against ~~its~~ serious hostilities committed recently against our side in violation of the Preamble of the Armistice Agreement and Paragraphs 6, 12 and 14 thereof.

At the same time, I demand that your side severely punish its personnel engaged in reckless acts of playing with fire in the Demilitarized Zone in accordance with Sub-paragraph 13e of the Armistice Agreement, expel them from the Demilitarized Zone and take thorough measures to prevent a recurrence of such hostile acts in the future.

UNC:

Your alleged charges will be investigated.

I have no further matters to discuss at this meeting.

KPA/CPV:

I note your statement that your side will investigate the grave violations by your side of the Armistice Agreement which I have just brought up.

Since you have stated that you have no further subject to be discussed, I propose to adjourn this meeting.

UNC:

I agree to your proposal to recess.

Meeting recessed at 1249 hours
